

METHODOLOGY

During the Airport Master Plan update process, the Flightpath project team will collect a variety of data from several sources in order to create a custom plan for Heber Valley Airport.

Regional Details

Sources include US Census Bureau, Utah Governor's Office of Management and Budget, Kem C. Gardner Policy Institute at the University of Utah, Woods & Poole, Inc.

Aviation Trends

Sources include FAA (Terminal Area Forecast, Aerospace Forecast, National Plan of Integrated Airport Systems report to Congress), UDOT (Utah Continuous Airport System Plan, Utah Economic Impact Study), airport users and tenants (cameras, flight plans, surveys, and interviews).

Regional Details

Airport User Data

Collected data includes aircraft traffic counts, Instrument Flight Plans filed with the FAA, airport user surveys, airport user interviews, FBO records.

Aviation Trends

Community Feedback

Public input is very important; comments are collected in person (committee and public meetings), online (website and email), and via social media (Facebook and Instagram).
